

Taking the temperature of your church

Before we take the temperature of the community let's see if your church is healthy. Answer the following questions to gauge the health of your church. If your answer 'no' or 'maybe' to any of these questions, pause and consider the implications of your answer and what you need to do to turn your answer into a 'yes'.

1. People in my church are willing to volunteer and be involved in new groups and ministries.
Yes Maybe No
2. I believe individual members' voices are heard in my church.
